

Departing - all PRMs								
	Standard (waiting time once PRM made themselves known)	Target	October	November	December	January	February	March
Pre-booked	<b>Numbers of PRMs</b>		439	210	282	245	231	227
	10 mins	80%						
	20 mins	90%						
	30 mins	100%						
Non pre-booked	<b>Numbers of PRMs</b>		38	19	41	9	7	17
	25 mins	80%						
	35 mins	90%						
	45 mins	100%						

**Please complete each percentage to two decimal places.**  
 Standard (waiting time once PRM made themselves known) - For departing PRMs this is the time difference between the time a person first makes themselves known (either in person / phone / buzzer) and when face to face contact is made. For the majority of occasions with airports with manned PRM desks, this should be immediate. This is intended primarily to capture waiting times when PRMs call from designated points or from unmanned PRM desks.

Arriving - all PRMs								
	Standard (time assistance available at gate or aircraft side from arrival on chocks )	Target	October	November	December	January	February	March
Pre-booked	<b>Numbers of PRMs</b>		559	229	297	211	249	281

	45 mins	100%						
	60 mins							
	75 mins							

**Please complete each percentage to two decimal places**  
 Standard (time assistance available at gate from arrival on chocks) - For arriving PRMs this is the time difference between when staff arrive at the gate or aircraft side ready to disembark PRMs and the on chox time. It is important that this is recorded for all PRMs (i.e. airports must measure this standard for all staff needed to disembark all PRMs - and not just based on the first staff member to arrive at the gate). If airports prefer to record the time difference between the time PRMs are actually disembarked and on chox time, this is acceptable although the same targets apply.
